

Online research opportunity!

Recruiting from July 2024 - December 2026

Researchers at UBC are looking to understand the risks of wildfire exposure during pregnancy on a child's health and development

Who can participate?

- You are a biological mother who was pregnant sometime between 2016 and 2023
- You were pregnant, gave birth, and reside in British Columbia, Canada

What does participation involve?

- Complete an online survey (~90 minutes)
- Allow us to use your child's samples from birth
- Let us gather your health information from existing records

Scan to see if you are eligible:
